EDUCATION

B.Tech in Science Laboratory Technology, Nov 2021
Ladoke Akintola University of Technology Ogbomosho, Nigeria

PROFESSIONAL EXPERIENCE

Data Annotator (Machine Learning), *Otaku.Hugo Company Ltd* Oct 2023 – present
Lagos, Nigeria

- Contributing as a data annotator/rater, specializing in artificial intelligence language and large language model datasets.
- Ensuring data accuracy and consistency through thorough verification and validation processes.
- Evaluating and implementing best practices to improve annotation efficiency and effectiveness in the context of large language models.

Real Estate Assistant, *Khabid Global Homes and Realtors* Jul 2022 – Sep 2023
Abeokuta, Nigeria

- Assisted in the management of rental properties, including handling tenant inquiries, coordinating maintenance requests, and ensuring compliance with leasing agreements.
- Conducted research on local real estate market trends, property values, and demographics to help identify potential investment opportunities.
- Assisted in financial analysis, including property valuation, investment analysis, and budgeting for real estate projects.

Full Stack Web Developer (Intern), *Tech Studio Academy* Feb 2023 – Apr 2023
Remote

- Collaborated with a team of senior software engineers to acquire proficiency in React.js and Python programming languages.
- Engaged with the team to identify and resolve bugs and debug issues within projects.
- Worked with web developers and graphic designers of varying experience levels to integrate web design features seamlessly.

Lab Technician (Intern), *Oluwaseun Medical Centre* Jun 2019 – Jan 2020
Ogbomosho, Nigeria

- Designed and conducted lab tests according to standard procedures.
- Conducted tests on new products or experimental processes.
- Administrative tasks such as maintaining notebooks, documenting procedures, and preparing orders.

PROJECTS

Calc App, *A calculator web project* Jun 2023

- I built this application using JavaScript, HTML, and CSS.
- I designed and implemented a versatile calculator application, leveraging my expertise in JavaScript.
- The project aimed to provide users with a diverse set of features, including customizable themes and calculator levels, highlighting my commitment to delivering functional and user-centric solutions.

TradExpress, *A frontend project* Nov 2022

- This is a frontend project built using Html, CSS, Reactjs, and Bootstrap.
- It's a trading platform landing page called TradExpress, where a user can sign up, buy and sell cryptocurrency.
- Also, an API was fetched in order for a user to see the real-time current market price of all the top cryptocurrencies.

Spatial variability of two major FM Radio Stations, *within Ogbomosho* Mar 2021

- In this study, an effective field strength measurement of the channel across Ogbomoso, Oyo state, was conducted as far as road accessibility permits.
- Other necessary radio communication parameters on the MHz band such as line of sight, elevation and geographical coordinates of the various data points were also determined.
- This project was my final year project at the university, and it was carried out by a group of 7 students including me.
